

Successful Action Against Anti-Social Behaviour in Wentworth: Two Laybys Infilled Hoover Hall Lane

I am pleased to report a major outcome in our ongoing work to tackle anti-social behaviour and vehicle-related crime in the local area.

Following persistent engagement with Rotherham Metropolitan Borough Council (RMBC) Enforcement Officers and Highways, i have successfully arranged for two laybys in Wentworth to be completely infilled.

These specific locations were recurring hotspots for anti-social behaviour, including dangerous vehicle use and deliberate car fires. Closing off these laybys directly removes a key venue for these activities, helping protect our local environment and improve safety for residents and visitors alike.

Thank you to the officers and Highways team for their collaboration in getting this work completed over the past few weeks.
